Statewide Coordination

The California Telehealth Network (CTN) project is being managed at the highest level, through the Office of the President of the University of California (UC). Operational responsibility has been delegated to the following entity within the University:

Center for Health and Technology
University of California Davis Health System
2300 Stockton Blvd, Suite 3900
Sacramento, CA 95817

CTN operational management also receives guidance and operational support from the large group of CTN Consortium Member organizations. The CTN Consortium was originally formed in order to coordinate and consolidate multiple independent Rural Health Care Pilot Program (RHCPP) proposal initiatives, with the aim of submitting a single proposal that represented the interests of the State of California. The Consortium was formed specifically at the direction of the Governor's Office. Please see the list of CTN Consortium Member organizations provided in previous quarterly reports. The CTN Consortium advises and informs CTN project management through the CTN Board and CTN Executive Committee, whose members represent rural health care providers, state government organizations, as well as non-profit health care funding organizations. Statewide coordination of the CTN project is greatly facilitated by the willing investment of time, resources and expertise provided by the CTN Consortium members.

Operational coordination of the statewide project is currently the joint responsibility of the California Telehealth Network 501 (c)(3) Corporation, Center for Health and Technology (CHT) at UC Davis, and AT&T who serves as the Prime Contractor for technical implementation and maintenance of the project. The CTN 501(c)(3) is almost complete in its transition to a fully independent organization. Once all approvals are complete, the CTN 501(c)(3) will provide all coordination, communications, and financial support required to recruit and enroll new participant sites and support existing CTN member sites independently.

2. Identify All Health Care Facilities Included in the Network

From the outset, the CTN initiated numerous statewide communications activities aimed at enrolling prospective CTN participants. Close to 1000 health care facilities signified their intention to participate by submitting a Letter of Agency with 863 of those sites confirmed eligible through the CTN Form 465 filing, dated July 3, 2009. A complete listing of eligible Participant Sites is available at the USAC RHCPP Web Site, under the California Telehealth Network entry. The CTN received Letters of Agency from numerous organizations who are interested in participating in the CTN. These organizations continue to be put forth for eligibility determination. Additional 465A filings are anticipated throughout the year as new sites discover the CTN and want to participate in this exciting project. In addition to the data on the posting shown below, CTN is including in this report, additional approved participant sites, the Census Tract, RUCA codes, public vs. non-public status, and non-profit vs. profit status associated to the filing. Please see attachment 1 of this report.

<http://www.usac.org/rhc-pilot-program/tools/search-postings-2009.aspx#CA>.

3. Network Narrative

The request for proposals (RFP) for CTN network services (CTN RFP #2009-02) provided detailed specifications and requirements for performance, reliability, security and quality of services, as well as detailed requirements for managed services to be provided by the Contractor(s).

Form 466A Filing Status

466A filings were submitted to USAC before the total amount of administrative and utility tax fees were accounted for. In June, 2011 AT&T provided a breakdown of all taxes and fees that will be included in the AT&T invoice. Subsequently USAC identified the eligible charges from that breakdown. CTN filed a revised 466A with the new bundle pricing including taxes and surcharges and submitted the updated filing in September, 2011. This filing included sites and CENIC connections.

CTN has completed its investigation of an alternative network option that promises to provide better performance, as well as a greater degree of reliability and redundancy. The alternative option is termed: "Network-Based Firewall" infrastructure. CTN has consulted with USAC regarding substitution and augmentation of the original security infrastructure with the proposed NBFW architecture. It should be noted that all services and products required to implement the alternative security system were included in the initial CTN Master RFP. Consequently, although final approval is subject to detailed review of CTN's 466a filing, USAC has agreed that the upgraded infrastructure should be eligible for subsidy under the RHCPP. CTN is currently working with AT&T (vendor) to develop modified contract language that accommodates the proposed substitution and augmentation of security services. Upon receipt and agreement of those contract revisions, CTN will file the necessary paperwork with USAC.

The CTN appreciates USAC's continued assistance and time with these filings and program guidance.

4. List of Connected Health Care Providers

CTN completed connection of the CTN backbone network to CENIC on March 23, 2011. This was a major milestone for the CTN. Currently, a total of 77 sites are connected to the CTN backbone, and as a result of the CENIC connection, all University of California sites are also connected to the CTN. Additionally, many member sites have opted to provide Wide Area Network (WAN) connections to multiple sites within their entities. Taking these sites into account, instead of counting only router installs, the total number of sites with access to the CTN is 177. Please see Attachment 2 for a list of the physically connected sites plus the University of California sites that originally signed LOAs.

Last quarter CTN held its first Webinar for the first round of CTN connected sites. The agenda included discussions regarding the install process, an update on the Booz Allen Hamilton Business Plan recommendations, telemedicine programmatic training (provided by CTEC), an introduction to the CTN/UCDHS eHealth Broadband Adoption training website, and general discussion and feedback on CTN.

CTN also worked with the Gilmore Group consulting to develop video testimonials from sites such as Catalina Island Medical Center, Children's Dental Clinics in Long Beach and Los Angeles, and Community Health Alliance of Pasadena (CHAP). These testimonials can be viewed on the CTN YouTube channel at:

<http://www.youtube.com/user/CalTeleHealth?feature=mhee>. The video spots will also be aired as public service announcements in the respective communities. Estimates of the number of households that will be reached through these announcements is 1.7 million households.

Attachment 3 and 4 depict the CTN network diagrams. These diagrams illustrate respectively: 1) the overall network architecture of the CTN backbone network, showing how individual sites are connected into the CTN "Cloud", which provides HIPAA-compliant secure interconnection among all participating sites; 2) detailed illustration of the CTN-CENIC peering point in Los Angeles, that incorporates a sophisticated phalanx of network security equipment and software, termed a "DMZ (demilitarized zone), that monitors all traffic to/from the CTN and filters out malicious traffic. As mentioned in Section 3 above, CTN has settled on an alternative security infrastructure that will replace and augment the existing security system and greatly improve the network performance, reliability and redundancy. CTN is endeavoring to complete final technical and administrative/contract negotiations with AT&T before the end of Q1, 2012 with the expectation that actual implementation would be completed within that same time frame. USAC filings will be submitted within the next 30 days. Once the new network configuration is approved, CTN will provide new network diagrams to reflect the change.

5. Identify the Following Non-recurring and Recurring Costs

CTN received a comprehensive bundle pricing package for connectivity costs for CTN bundle offerings from AT&T. This bundle pricing was submitted to USAC in June and CTN received notice of approved costs during a conference call with Camelia Rogers on Friday, July 15th. AT&T representatives are working closely with CTN and USAC to develop a comprehensible yet searchable bill which will specifically break out itemized costs as well as ineligible costs. This bill will help substantially in the USAC invoicing process. AT&T continues to work through the completion of its invoice and hopes to have a complete and comprehensive invoice to CTN for the February 2012 billing cycle.

CTN is in the process of interviewing candidates for a Billing Analyst position. This person will be responsible for helping to validate AT&T bills and developing the associated USAC invoices via the USAC SharePoint site.

AT&T and CTN completed preliminary contract negotiations which would allow for the 300 router deployment requirement to be extended an additional 18 months. This contract amendment, along with amendments for the transfer of control to the CTN 501 (c)(3), as well as site additions are currently under development in the AT&T legal department.

CTN has received a complete invoice for the BT Communications Firewall Traversal System and has completed and submitted the appropriate invoicing for The California Emerging

Technologies Fund (CETF) 15% matching funds. Documentation was sent to BT conferencing to submit reimbursement for the outstanding balance.

6. Describe how Costs have been Apportioned and the Sources of the Funds to Pay Them

Thus far, CTN has invoiced against the Internet2 funding request number (FRN) # 50254. Eighty-five percent (85%) of this subscription fee is reimbursable; the remaining 15% was reimbursed using matching funds from the California Emerging Technologies Fund (CETF). As noted above, CTN has also invoiced for the Firewall Traversal System which was approved under FRN # 52391.

Sources of Funding in Addition to RHCPP Award

CTN continues to recruit fair share sites for participation in the network. Several negotiations are currently taking place with multi-site organizations such as Kaiser Permanente (30 sites) and Catholic Healthcare West (30 sites). CTN began discussion with the California Teleconnect Fund (CTF) to determine the amount of discount CTF will offer for fair share sites. CTN is also offering different levels of Managed Router Service. This will allow CTN fair share pricing to be more flexible and competitive.

California Emerging Technologies Fund (CETF) recently committed another \$1 million to fund operational and administrative expenses of CTN and has challenged other CTN 501(c)(3) Board stakeholders to match this commitment. Through confidential discussions, another CTN Board stakeholder is in the process of obtaining internal approvals to provide an additional \$700,000 in core CTN operating funds. Discussions with other agencies for additional funds continues. CTN began member billing in July, 2011 for sites connected as of July 1, 2011.

7. Identify any Technical or Non-technical Requirements or Procedures Necessary for Ineligible Entities to Connect to the Participant's Network

CTN continues to receive interest from various for-profit and other RHCPP ineligible health care facilities. Interested parties receive the Share-of-Cost Membership Agreement for review. Several parties have expressed interest, however, at this time executed agreements remain pending. Through discussions with California Teleconnect Fund (CTF), the CTN decided to reflect on the fair share pricing schedule the discount provided by CTF. This will illustrate to CTN fair-share members that CTN pricing is competitive to other telecommunication providers and will clearly delineate the rates and discounts for financial management purposes.

8. Provide an update on the project leadership, management structure and plan

a. Current Leadership and Management Structure

CTN worked with its existing members to obtain a transfer of agency letter from UC Davis to the CTN 501(c)(3) entity. All transfer of agency letters have been received and are on file.

The CTN and The California Health Foundation Trust agreed to formalize a collaboration between the California Telemedicine and eHealth Center (CTEC) and the CTN in September, 2010. Final details of the merger are complete but awaiting final budget approval from HRSA. The two groups have moved into the same office space and are collaborating on site training and telemedicine programmatic outreach to CTN sites. CTN/CTEC staff continue to work together to optimize shared resources and become one comprehensive entity.

The CTN 501(c)(3) continues to move ahead with the phased approach to becoming an independent entity able to support all functions of the RHCPP program. Final approvals are being sought and a confirmation that the 501(c)(3) has the infrastructure and operational capacity to successfully manage all aspects of the program is being completed. Once all approvals are in place, the CTN 501(c)(3) will function as an independent organization. CTN continues talks with Regional Extension Centers CalHIPSO and HITEC-LA to provide CTN site outreach services to eligible RHCPP sites around the State. CALHIPSO reports that 42% of the sites with CTN Letters of Agency are currently CalHIPSO members.

As of December 1, 2011, CTN hired a Communications coordinator who has been instrumental in getting email communications, and social media content operational and up to date. CTN is now recognized on Twitter and Facebook.

President and CEO of the CTN, Eric Brown, continues to reach out to various organizations and groups to promote connectivity and use of the CTN. Some of his activities during this quarter are listed below.

Name of Activity	Location of Activity	Description of Activity (600 words or less per activity)	Size of Target Audience	Actual Number of Participants
Google	Mountain View, CA	10/03/2011 – meeting regarding tele-health and the tele-education applications. CTN briefing on the use of broadband and innovative health care applications.	3	3
Booz Allen Hamilton	San Francisco, CA	10/03/2011 – CTN meeting regarding Business Plan Implementation Plan.	3	3
Covisint	Sacramento, CA	10/03/2011 – Meeting regarding a suicide prevention program supported by in-home telemedicine. CTN update.	20	20
Wellpoint Inc. /Anthem Blue Cross	Sacramento, CA	10/04/2011 – CTN briefing with Wellpoint executives. To establish CTN in the 62 Blue Cross Telemedicine Network sites.	3	3
Community Health Alliance of Pasadena	Pasadena, CA	10/05/2011 – CTN briefing with CHAP executives. Set up CTN testimonials video shoot.	3	3
Children's Dental Health	Long Beach, CA	10/05/2011 – CTN briefing and update with executives. Set up	3	3

Clinic		CTN testimonials video shoot.		
Asian Pacific Policy Planning Council	Los Angeles, CA	10/06/2011 – CTN briefing and update with executives.	30	30
San Joaquin Valley Regional Broadband Consortium	Bakersfield, CA	10/07/2011 – CTN presentation to Valley stakeholders to reflect and strategize on key challenges and opportunities.	150	150
California Community Colleges	Sacramento, CA	10/11/2011 – CTN briefing with community colleges regarding BTOP grant and CTN.	6	6
Rhode Island Quality Institute	Sacramento, CA	10/13/2011 – CTN briefing with executives to discuss CTN adoption of National Health Information Network.	6	6
AT&T	Sacramento, CA	10/14/2011 – Meeting with AT&T to discuss CTN contract transfer from UC to CTN 501c3	6	6
California Rural Indian Health Board	Sacramento, CA	10/21/2011 – CTN briefing and update with CRIHB executives to execute CTN membership agreement for all CRIHB sites. 14 CRIHB sites and 70 Indian Health Services sites.	5	5
CENIC	Sacramento, CA	10/21/2011 – CTN briefing and update with CENIC executives regarding transferring CENIC agreement from UC to CTN 501c3	2	2
California Rural Indian Health Board	Reno, NV	10/27/2011 – CTN presentation at CRIHB's Annual Board of Directors meeting on Model eHealth Communities Telemedicine. With outreach to 400 CRIHB sites.	30	30
Health IT Summit	Los Angeles, CA	11/02/2011 – CTN presentation on driving innovation in Health IT	100	100
Cal Optima	Orange, CA	11/03/2011 – CTN briefing with Cal Optima executives on CTN deployment and BTOP Grant online content	2	2
California HIE Stakeholder Summit	Sacramento, CA	11/08/2011 – CTN briefing to participants	150	150
Covisint Inc.	Washington, DC	11/08/2011 – CTN briefing with executives.	5	5
Office of Senator Feinstein	Washington, DC	11/09/2011 – CTN briefing with legislative staff on CTN deployment status	1	1
Health	Washington,	11/09/2011 – CTN briefing with	1	1

Novation	DC	executives.		
Federal Communication Commission – Wireline Competition Bureau	Washington, DC	11/09/2011 – CTN briefing and update with Sharon Gillett and the Wireline Competition Bureau team to update them on CTN deployment and request additional Rural Health Care Pilot Program funding	6	6
Federal Communication Commission	Washington, DC	11/09/2011 – CTN briefing with Zac Katz, FCC Chairman’s Chief Counselor and Senior Legal Advisor to update him on CTN deployment and request additional funding	1	1
USAC	Washington, DC	11/10/2011 – CTN briefing with executive staff and Bill England to provide CTN update and discuss RHCPP metrics	4	4
Office of Senator Boxer	Washington, DC	11/10/2011 – CTN briefing with legislative staff on CTN deployment status	1	1
California State Rural Health Association	Sacramento, CA	11/16/2011 – CTN presentation at the annual conference regarding operating telehealth in rural areas.	100	100
California Telehealth Network	Sacramento, CA	11/17/2011 – CTN webinar to introduce first 50 sites to each other and share best practices	10	10
National Health Foundation	Los Angeles, CA	11/21/2011 – CTN update with Dr. Grigsby to develop CTN fundraising strategies.	1	1
LA Care	Los Angeles, CA	11/21/2011 – meeting with executives regarding CTN site outreach activities	6	6
Wellpoint/ Anthem BlueCross & Colorado River Medical Group	Needles, NV	11/29/2011 – CTN presentation to Colorado River Medical Center and Blue Cross Telemedicine Network team. Blue Cross agreed to partner with CTN to provide CTN services to 62 Blue Cross Telehealth Network sites in CA	20	20
California Public Utilities Commission	San Francisco, CA	12/ 01 2011 – CTN briefing with Commissioner Tim Simon of the California Public Utilities Commission to provide update on CTN progress	2	2
California Emerging Technology Fund	San Francisco, CA	12/ 02/ 2011 – CTN presentation to thirteen CETF’s Regional Consortia to encourage CTN participation	100	100

Cal eConnect	Emeryville, CA	12/06/2011 – CTN briefing with Cal eConnect CEO Laura Laundry	1	1
Kaiser Permanente	Walnut Creek, CA	12/09/2011 – CTN briefing with Kaiser Permanente data center team to discuss CTN connection to the Kaiser network	4	4
Oregon Health Network	Portland, OR	12/13/2011 – CTN briefing with Kim Lamb to compare best practices	1	1
California Telehealth Network	Sacramento, CA	12/15/2011 – CTN Webinar – What's new in Antiretroviral Therapy	12	12
Renown Health	Reno, NV	12/29/2011 – CTN briefing with Kirk Gillis to discuss Renown becoming a potential CTN partner to provide specialty care and other services to CTN sites	1	1
Total:				799

b. Project Plan and Schedule

In March, 2011 the CTN-CENIC peering infrastructure was completed. Through establishment of a physical connection point (peering point) between the CTN backbone and the statewide CENIC network, CTN participants will be afforded direct access to all educational and research institutions comprising CENIC, access to national research and educational networks (i.e., Internet 2 and National LambdaRail), as well as access to the Public Internet.

The following is an updated approximate schedule of events. Please note that all dates listed are estimates and are subject to change.

Schedule of Events

Event	Date
Review and Score CTN Business Plan Consultant Proposals	Complete
Completion of Proposal CTN Business Plan Evaluation Process	Complete
CTN Business Plan Award Announcement	Complete
Initiation of CTN Business Plan Vendor Contract Negotiations	Complete
CTN Business Plan Vendor Contract Signing	Complete
Initial Form 466A Submission	Complete
Completion of Second and Third 466A Submission	Complete
Collect signed Membership Agreements from CTN Participants	Ongoing
Technical Site Readiness Calls for First 50 Sites	Complete
Distribution of Site Readiness Questionnaires to Additional Sites	Ongoing
Legal Review of Share-of-Cost Membership Agreement	Complete
Begin Construction of CTN-CENIC Peering Infrastructure	Complete

Implementation of Internet Connectivity	Complete
Rescind three original 466A Site Filings	Complete
Submission of Revised 466A Filing	Complete
Submission of 465 Filing for additional sites	Ongoing
Orders placed with AT&T	Ongoing - 160
Consolidated bill received from AT&T (anticipated)	February 2012
USAC AT&T invoicing to begin	February 2012

9. Provide Detail on Whether Network is or Will Become Self-Sustaining

The California Health Care Foundation provided funds to the CTN to hire a business plan consultant to advise CTN on various network offerings that will enhance the sustainability of CTN. CTN issued an RFP for a business plan consultant and awarded a contract to Booz Allen Hamilton (BAH) based out of San Francisco.

Booz Allen Hamilton completed the CTN business plan in September 2011. Recommendations from that business plan were presented to the board and continue to be reviewed by CTN staff and board as they relate to implementation. Based on the recommendations, the CTN Sustainability plan was revised to include updated projections reflecting the Booz Allen Hamilton findings and recommendations.

10. Provide Detail on How the Supported Network has Advanced Telemedicine Benefits

Many of the CTN connected sites are now conducting telemedicine consultations over the network. The sites continue to express great satisfaction with the quality of the video and dependability of the network. Additionally, CTN's work with the UC Davis Health System on the eHealth Broadband Adoption grant, funded by the Department of Commerce's Broadband Technology Opportunities Program, has created several online learning opportunities. This grant also established 15 Model Communities throughout the state that will exemplify a collaborative model of telemedicine and telehealth services running over the CTN.

The eHealth Broadband Adoption Online Training Program provides numerous lessons on the topics of telemedicine, telehealth, and other important broadband adoption topics. This training, available to all CTN RHCPP sites provides learners with information on how to start and operate a telemedicine program, in addition to learning more about the CTN and other telehealth services. A link to the training site and a list of the selected Model Communities can be found at: <http://www.ucdmc.ucdavis.edu/cht/initiatives/BTOP/index.html>.

Through the collaboration between California Telemedicine and eHealth Center (CTEC), CTN has been able to provide assistance to clinics wanting to develop sustainable telemedicine programs. It is clear through this collaboration and the eHealth Broadband Adoption project that many sites need additional assistance with program development once their broadband network infrastructure is implemented. This type of support, along with the addition of a 24/7 technical

call center for the connectivity are two service level offerings the CTN is actively discussing how best to provide.

11. Provide Detail on How the Supported Network has Complied with HHS Health IT Initiatives

- a. Interoperability Standards: the network has been designed as an “open network”, complying with industry-standard protocols.
- b. The network has not deployed any applications to date. CTN intends to adhere to the Certification Commission for Healthcare Information Technology (CCHIT) standards in selecting and implementing applications.
- c. CTN completed construction of an interconnection (peering point) with the CENIC statewide educational and research network in Los Angeles California. Through the peering point, CTN participants are now able to directly connect to all sites available on the two national research and educational networks: 1) Internet2 and 2) National LambdaRail.
- d. To date, the network has not yet used resources from the Agency for Healthcare Research and Quality (AHRQ) National Resource Center for Health Information Technology.
- e. University of California Davis Health System (UCDHS), the operational lead organization for the CTN, is actively involved in bioterrorism and pandemic response activities. Several members of the UCDHS Center for Health and Technology (CHT) are actively involved in this work and will be advised to coordinate the CTN-related activities with Department of Health and Human Services (HHS) Secretary for Public Response.
- f. UCDHS CHT will participate with CTN management to facilitate interoperability with public health and emergency organizations. CHT completed work through a \$5 million grant from HHS to develop Emergency Department Surge Capacity coordination. Part of this work involved developing collaborative and cooperative agreements among local, county and regional emergency response agencies and public health organizations. Efforts were made to coordinate the integration of additional sites for the HHS project in such a fashion that there was maximal overlap between HHS and CTN sites. The long-term goal is to position the CTN to become a core component of region and statewide efforts to develop emergency response and disaster preparedness programs and infrastructure. CHT and CTN management will expand the coordination efforts to include HHS and CDC interoperability requirements, as the network is actively deployed.
- g. CTN is coordinating with the University of California Proposition 1D/PRIME rural outreach initiatives. This program is funded through a \$200 million bond initiative approved by the voters to enhance training of medical students who express interest in practicing in rural areas. A portion of the funds (\$10 million) will be used to provide telemedicine equipment to rural health care sites, in order to facilitate telemedicine use. The equipment distribution initiative was suspended for a period of time during late 2009 due to significant state budgetary challenges, but has since resumed. To date, 10 sites have received telemedicine equipment and training, while the others are in various stages of the deployment process. More sites across California are participating in telehealth activities, including those with connectivity through the CTN.

- h. CTN is collaborating with the University of California, Davis Health System on an eHealth Broadband Adoption grant. This Department of Commerce, Broadband Technology Opportunities Program (BTOP) grant was developed to promote broadband adoption through technology enabled health care. Over \$14 million in federal and match funds combined will be used to support three important components:
- 1) CTN operations;
 - 2) the development of robust eHealth training curriculum that will be accessible on-line to educate CTN members, health care providers and consumers on the use of broadband in various health care modalities and;
 - 3) establish Model eHealth Communities that will receive strategically placed eHealth equipment in a number of rural and other medically underserved California communities. Model Communities will demonstrate a community-based transition model to technology-enabled health delivery.

A formal RFP process was established for Model Community selection. To qualify for consideration, communities must have the participation of three CTN sites, as well as meet several other criteria. Finalists were selected and announced. Please see the following website for a list of these communities.

<http://www.ucdmc.ucdavis.edu/cht/initiatives/BTOP/index.html>

12. Explain How the Selected Participants Coordinated in the Use of Their Health Care Networks

CTN will implement ongoing efforts to comply with HHS programs to provide access to network services during national, regional or local public health emergencies. CTN has initial plans to facilitate access through three means:

1. UCDHS received a \$5 million grant from HHS as part of their Emergency Department Surge program to develop effective health care coordination capabilities in the event of public health emergencies. UCDHS selected rural health care facilities that will co-participate in both programs. In this fashion, the capabilities of CTN to support coordination of geographically distributed health care resources on a regional basis will be developed.
2. CTN is connected to both National Lambda Rail and to Internet 2 national networks. Through these connections, HHS will have unrestricted access to the CTN network, thereby providing integration at a national level.
3. CTN is connected to the National Lambda Rail Regional Optical Network (RON) provider for California, the Corporation for Education Network Initiatives in California (CENIC). CENIC provides direct connectivity to every University of California campus and medical center, as well as most major academic medical centers within the state (e.g., Stanford Medical Center and University of Southern California Medical Center). This connectivity will provide a means of broadly coordinating access to every major academic medical network within the state.

The CTN Leadership Team communicates regularly with the Oregon Health Network, the Colorado Telehealth Network and the Southwest Telehealth Access Grid (TAG) in New Mexico to identify opportunities to partner. The CTN was in active discussions with the Oregon Health Network (OHN) to explore interconnection arrangements that would allow sites from each organization to communicate with each other. Since these discussions began, OHN has changed its strategy due to funding constraints and will focus their efforts on connecting additional sites to the OHN network. CTN will continue its discussions with other possible partners that may be interested in Internet2 and network to network connectivity.
